Equitable Resources, Inc.  
Retired

## Urban League of Pittsburgh Board of Directors

### OFFICERS

Why do busy people agree to serve on the Urban League Board? And what do they hope to see the League accomplish? They accepted the nominations because they strongly support the League's mission and vision to secure equal opportunity for minorities and the poor and because they were eager to contribute their individual talents and professional expertise toward accomplishing that end. They hope to help the League increase economic viability in the community and in the Black family while enhancing the quality of public education while closing the gap between Black and white student achievement in schools. Other areas are teenage pregnancy, minority employment opportunities, access to decent affordable housing and greater visibility for the League and its services in the community.
