ANATOMIC, CLINICAL, AND FORENSIC PATHOLOGY
LEGAL MEDICINE

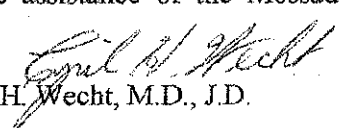

December 1, 2004

Mr. Gerald Schiller

Herr Schiller:

I consider myself to be extremely fortunate. On my worst days and in my bleakest moments, I am always able to seek comfort and find solace in the fact that individuals of your ilk are constantly aggravated and emotionally distressed by the knowledge that Jewish people and Israel continue to survive (despite your strong wishes and fervent prayers to the contrary). Indeed, I can only imagine how excruciatingly painful it must be to you and your fellow bundsmen to read so frequently about highly successful Jews in the fields of business, medicine, science, law, literature, etc. There probably is no limit to the sacrifices you would be willing and delighted to make if only you could bring this historical phenomenon to a quick and painful death.

Herr Schiller, be advised that I am not some insignificant meek Jew who will ignore and remain passively silent in the face of thinly veiled virulent and venomous anti-Semitism spewed forth by the likes of you. Perhaps you might wish to follow up on the asinine and absurd comments contained in your *Tribune-Review* letter with a direct personal meeting. As unpleasant and unrewarding as it undoubtedly would be, I would willingly disengage myself from the work that I do to confront a bigoted, anti-Israel, pro-Arabist like you. And I doubt that I would need the assistance of the Mossad to effectively deal with you.

Cyril H. Wecht, M.D., J.D.
